December 2005

Meeting Announcement

This month's meeting will be held on **Tuesday, December 13, 2005, from 11:30 a.m. to 1:00 p.m.** at the **Roper Mountain Science Center** located at the intersection of I-385 and Roper Mountain Road. For directions, please contact Programs Chairman, Eric Scott, by phone at (864) 232-6633 x21, email at programs@ashrae4greenville.com or by visiting <http://www.ropermountain.org>

A Message from the President

The Greenville chapter would like to thank Jeff Swiderski for a great presentation on Controls Protocols and Integration. We had a very good turnout and the information was very practical. The protocols discussed were BACnet, Lon Mark, ModBus, OPC, SNMP and HTTP. A description of each protocol, the history and its capabilities were discussed. These apply to industrial, pharmaceutical, commercial, institutional, and even some residential markets.

This month is a follow-up presentation from last year's satellite broadcast on Mold as well as our April meeting on Mold, Moisture and Building Pressurization. I received several responses from members regarding more on this topic; thus, December's topic is an Interpretation of a Mold Analysis by John McNamara, CIAQP, from AAA Environmental. Considering all the issues and problems in the industrial, commercial and residential markets, this meeting is a must.

I hope everyone has a wonderful Christmas holiday season.

If you have any questions or comments, please feel free to contact me.

Research Promotion

Research Promotion News - Dennis O'Keefe, RP Chairman

I got a lot of feedback about having a golf outing on Friday afternoon, so this spring there will be no reason not to come as we have picked Friday, April 21, 2006. Mark your calendars now. I expect to fill the place up.

If anyone has any ideas on fundraising events that we could apply to this Chapter please see me after the meeting. Thanks!
