## *Meeting Announcement*

The September meeting will be held on **Tuesday, September 9, 2014** at M.T. Anderson Support Center. For more information, please contact our Secretary, Melissa Angulo, at [secretary@ashrae4greenville.com](mailto:secretary@ashrae4greenville.com).

### A Message from the President

Happy New ASHRAE Year! I am excited to be serving as your Chapter President this year and together with the Committee we have a great year of events lined up. We took your input from last year's survey to create a program of speakers.

I am thankful to have a wonderful Chapter committee. Please take the opportunity to meet them at our Chapter meetings. As always, we appreciate any suggestions you may have for our chapter. Please let me know if you are interested in serving on a Chapter Committee. More about what a chapter committee does is available in the Manual of Chapter Operations, found here: <https://www.ashrae.org/society-groups/chapters>

A couple of weeks ago we had our Chapters Regional Conference (CRC) in Charleston. Our region consists of seven chapters, Atlanta, Charleston, Greenville, North Piedmont (Greensboro, NC), South Carolina (Columbia, SC), Southern Piedmont (Charlotte, NC) and Triangle (Raleigh-Durham, NC). Aside for the opportunity to meet with other regional chapters and learn about better ways in which to run our chapter, it's an opportunity for our region to have a voice at Society level. Our Society President, Tom Phoenix, hails from Region IV. Many of you had the opportunity to meet Tom at our 2013 meeting on BEQ and at our 50th Anniversary Party. You can see his presidential address, "People, Passion and Performance" at the following link:

<https://www.ashrae.org/society-groups/meet-the-board/2014-15-bod>

During the CRC, we have the opportunity to bring forth motions to Society level. Chapter members have the right and responsibility to present to their chapter CRC Action Committee (Chapter President & President-Elect) motions to enhance chapter, region or society activity. These motions will be presented by the delegate (usually, the Chapter President) of your chapter and discussed and voted on during the business session. Here is a link to last year's motions, <https://www.ashrae.org/society-groups/chapters/crc-motions>

Another of my responsibilities, as Chapter President, is to bring nominations forward for regional positions and committee positions. The Nominating Committee, one of the Society's most important committees, has the responsibility of selecting and nominating members who will guide the affairs of ASHRAE. However, for many committees, you may also nominate yourself or someone else directly through the ASHRAE website. There are many opportunities for ASHRAE members to participate at Society level from Standing Committees (<https://www.ashrae.org/society-groups/committees>) to the Membership, Publishing & Education and Technology Councils, (<https://www.ashrae.org/society-groups/councils>). In addition, there are many technical committees, which correspond to the Handbook

sections, where you can join as a Corresponding Member (<https://www.ashrae.org/standards-research--technology/technical-committees>) and the Standards committees, found here: <http://www.ashrae.org>. Even if you do not wish to participate in one of these groups, you can find all the proceedings in the links above.

I look forward to seeing you at our Chapter Meetings and events.

*Myrna Dayan, PE, CEM, LEED AP*  
*President, Greenville Chapter, ASHRAE Region IV*

## ***Membership***

Greetings from your new Membership Promotion Chair! I'm looking forward to spreading the word with you about the benefits of ASHRAE membership, including participating in our chapter. A few things we plan for this year include:

- Chapter meetings in Asheville in October and April, in addition to the meetings in Greenville
- Different nametags for visitors at our chapter meetings – so we all can make them feel welcome
- Focus on membership promotions at two meetings this year (to be determined)
