

## American Society of Heating, Refrigerating and Air-Conditioning Engineers

The Clemson Student Chapter of the American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE) invites everyone to come and enjoy a presentation by the ASHRAE President, Ronald Jarnagin. Mr. Jarnagin received his B.S. and M.S. degrees in Mechanical Engineering from the University of Florida. He is currently a staff scientist at Pacific Northwest Laboratory in Richland Washington and is serving as the 2011-2012 President of ASHRAE (an international society of over 50,000 members). Mr. Jarnagin will be giving a brief presentation about the ASHRAE Headquarters (Atlanta, GA) renovation which has achieved a LEED platinum certification with a focus on leadership and leadership opportunities within the industry. This will be followed by a short ceremony and handing over of the banner to commemorate the new Clemson Student ASHRAE Branch.

A reception and hor d'oeuvres will begin at 6:30 pm, Thursday November 3 in the main atrium of the Fluor-Daniel Engineering building. This will be a great way to learn more about ASHRAE and our student chapter here at Clemson. ASHRAE encompasses multiple areas of expertise and majors including Civil Engineering, Mechanical Engineering, Industrial Engineering, and Construction Science and Management. However, students from any major are welcome to attend.

Please e-mail Zachary Fowler, Student Branch President ([zfowler@g.clemson.edu](mailto:zfowler@g.clemson.edu)), if you have any questions.
