

Overview of a Modern Mechanical Engineering Firm: What we do, Who we hire, Coop opportunities

**Thursday, February 20, 2014
5:00 PM Room 132 Fluor Daniel EIB Building
Presentation open to the public**

**Craig R. Buck, PE, LEED AP
Lead Mechanical Engineer
RMF Engineering**

Mr. Buck is a mechanical engineer offering strong HVAC, plumbing, and system design skills. He has significant experience in all phases of project development for both renovation and new work for higher education, healthcare and laboratory facilities. He has been responsible for the design of air and hydronic piping distribution systems, as well as the planning of mechanical rooms, equipment selection, preparation of project specifications, and construction administration. Mr. Buck has performed detailed cooling and heating load analysis for numerous projects, and has been responsible for the complete coordination of mechanical, plumbing, fire protection, and electrical systems
