

# ASHRAE Greenville Chapter History

The below is a combination of Benny Boodle's, Devon Cortright's, and my documented history of the Greenville Chapter of ASHRAE. Benny Boodle documented Greenville's History in 1982 and updated it 1993. Devon Cortright updated the history in 2013. This update will bring the Greenville Chapter history into 2022. Benny Boodle's history report and Devon Cortright's history report have been left as they were written. Devon added a few notes in Benny Boodle's history with his initials beside it. I have also added a couple of those with my initials beside it.

## **1963 – 1993**

by Benny Bootle - 1983 & 1993 Historian

The Greenville Chapter of Region IV ASHRAE was chartered and began its operation during the 1963/64 fiscal year of ASHRAE.

This chapter is a spin-off from the South Carolina Chapter, which was originally chartered during the fiscal year of 1954/55.

Just for the record, the Charleston Chapter is a further spin-off of the South Carolina Chapter and received its charter during fiscal year 1971/72.

The members of the Greenville Chapter, who were originally members of the South Carolina Chapter met as a part of the South Carolina Chapter from 1954/55 through 1962/63.

During the initial stages of the South Carolina Chapter, the meetings would be held as follows: Columbia - Greenville - Columbia - Spartanburg - Columbia - Greenville - Columbia - Charleston. This gave four meetings per year in Columbia, two in Greenville, one in Spartanburg and one in Charleston. The meetings were on the third Monday night in September, October, November, January, February, March, April and May. It may be a coincidence, but both the South Carolina Chapter, who meets in Columbia and the Greenville Chapter, who meets in Greenville, still meet on the third Monday. (Obviously this is no longer true. dc)

Even though four of the eight meetings were held in Columbia, we were finding that by the early 60's there would be more people in attendance at a Columbia meeting from Greenville than there were from Columbia. A group of the Greenville members felt it would behoove both the Greenville and Columbia members for Greenville to file a petition to become a separate entity. The original petition consisted of 26+ names of the Greenville area and the chapter was originally chartered to start serving as the Greenville Chapter during fiscal year 1963/64.

It is interesting to note that the following Greenville Chapter members served as President of the South Carolina Chapter prior to the Greenville Chapter being formed and they are as follows:

1955/56	R.K. Rouse (Deceased)
1957/58	B.A. Leppard (Deceased)
1958/59	H.J. Haar (Deceased)
1960/61	T.O. Curlee, Jr. (Deceased)
1962/63	H.R. King

# ASHRAE Greenville Chapter History

It is interesting to note that during the early years and up until the early 60's, the interstate system had not been completed. I can recall several trips in which four or five of the Greenville/ Spartanburg members would depart about noon on the third Monday of the month (once per year) to attend a Charleston Chapter meeting i.e. the Fort Sumter Hotel on the Battery or Francis Marion Hotel on King Street (both of which do not exist anymore) (The Fort Sumter Hotel is now condominiums, the Francis Marion was remodeled in 1996 and is where the 2022 Region IV CRC was held BG).

The Columbia meetings were held in downtown Columbia hotels, which also do not exist anymore.

The Spartanburg annual meeting was held at the Cleveland Hotel on Morgan Square, which does not exist anymore.

The two annual meetings in Greenville were held at the Ottara Hotel (the present site of the Hyatt Regency) and the Greenville Hotel and sometimes the Poinsett Hotel. None of the above exists in the form of a hotel even though two of the buildings are still standing. (The renovated Poinsett Hotel is now back in business. dc)

The Greenville Chapter, during its 1992/93 year, will be completing its 30th year as an ASHRAE chapter. The following is a list of the past and present chapter presidents.

1963/64	George Morgan
1964/65	Jas. E. Waldrep
1965/66	Jasper C. Boles
1966/67	Benny T. Bootle
1967/68	Jlm McCarter
1968/69	Bob Allan (Pres.) Truman Ellison (Acting Pres.)
1969/70	Jack Slattery
1970/71	Tom MacFee
1971/72	C. Evans Putman
1972/73	Frank Durham
1973/74	Fred Mappus
1974/75	Balus Chastain
1975/76	Dave Beeson
1976/77	Al Wills
1977/78	Forney Lowe (Pres.) Al Wills (Acting Pres.)

1978/79	Ed Evans
1979/80	Ron Miller
1980/81	Bill Chisholm
1981/82	Chris Bueker
1982/83	David Scadlock
1983/84	Ray Chandler
1984/85	Chip Allison
1985/86	Porter Huskey
1986/87	Jon McKnight
1987/88	Forney Lowe
1988/89	Fred Stansell
1989/90	T. Minh Tran
1990/91	Ted Garrett
1991/92	Carrol Suttles
1992/93	Steve Ernest

The two listed as acting president filled slots for two former chapter presidents, who were transferred during their year.

# ASHRAE Greenville Chapter History

The Greenville Chapter boundaries initially included some counties in the Northeast area of the state that were transferred to the S. Piedmont Chapter and a group of counties in Western North Carolina were, in turn, transferred to the Greenville Chapter.

The Greenville Chapter served as the host Chapter for the Region IV CRC during the years 1967/68, 1982/83 and 1990/91.

It should be noted that Region IV encompassed North Carolina, South Carolina, Georgia, Florida and Puerto Rico with up to sixteen (16) chapters prior to Regional Reorganization. The current Region IV, as of this writing, consists of three chapters in North Carolina, three in South Carolina and one in the State of Georgia (a total of seven). (Still accurate in 2022. BG)

The Greenville Chapter, as previously noted, meets on the third Monday, eight times a year, at The Holiday Inn on U.S. #25. They have met at this location for several years. They have met during the thirty year period at other locations such as the Colonial Court, Wade Hampton Blvd., Charcoal Steak House, U.S. #25 and Ye Olde Fire- place, 291 Bypass (South Pleasantburg Drive) and the Thunderbird Inn on 291 Bypass. The current meal price for the year is \$12.00 for a buffet. (See follow up article for subsequent meeting locations. dc) The writer (Benny Bootle) can remember meeting at Ye Olde Fireplace when steak was served family style (all you could eat) for \$3.50, i.e. this was when membership dues were \$2.00 annually and Society dues were in the \$20.00 range. You could also fly round trip to a Winter ASHRAE Exposition in Chicago or Philadelphia in the early days for less than \$100.00 complete with at least nine (9) stops in a DC3.

During the thirty year period, we find that from the original 26 who signed the petition, we are now assigned some 238+ area members. (The Greenville Chapter currently has 206 area assigned members. dc)

Since the inception of the Presidential Award of Excellence, the Greenville Chapter has received the PAOE fifteen times, plus a Star Award three times and a Special Citation Award two times.

During this period (1963 to 1993), Region IV, of which Greenville is a part, has provided the Society with three Presidents, namely David Rickelton, Jack Chaddock and Barney Burroughs. The Greenville Chapter has provided the Region with three Regional Vice-Chairmen and one Regional Chairman plus alternate and member for the Society Nominating Committee plus Society Committee Members under Research Promotion, Meetings and Arrangements, Admissions and Advancements Refrigeration and Administrative Council Committee. All historical records, including the original charter, are maintained at 3 N. Kings Road, Greenville, South Carolina 29605. (Unfortunately a significant number of historical documents have been misplaced. Those currently available are at H2L, 116 S. Pleasantburg Drive, Greenville. dc; Most documents have now been digitized and are available through the ASHRAE provided Basecamp; no documentation is located at H2L anymore. bg)

## 1993-2013

By Devon Cortright

Extending Benny Bootle's 1993 chapter history with a list of chapter presidents from 1993 to present.

1993/94	Kevin Melton
1994/95	Mike Metz
1995/96	Pete Arsenault
1996/97	Paul Jensen
1997/98	Han McCullough
1998/99	Terry Bowen
1999/20	Mark Schnetzka
2000/01	Steve Abernathy
2001/02	Patrick Leake
2002/03	Mike Eckert
2003/04	Ryan McCleary

2004/05	Karl Counts
2005/06	James Bryan
2006/07	Eric Scott
2007/08	Karl Counts
2008/09	Will Thomason
2009/10	Davin Sandhu
2010/11	Devon Cortright
2011/12	Grant Wiegmann
2012/13	William "Ryan" Tonnsen
2013/14	Daniel Lowe

Benny's chapter history stopped in 1993 with meetings at the Holiday Inn at I85 and US25. From there meetings moved to the Phoenix Inn on Highway 291 where I attended my first one. Prior to the mid 90's the meetings were typically held in the evening with a seminar starting at 5:30, an "attitude adjustment session", dinner, followed by a program. Fees for an evening meeting were typically about \$12. In the mid 1990's occasional lunch meetings were scheduled and over time all meetings were moved to a lunch format, with exceptions for special occasions. During this transition period meetings were held at two Piedmont Natural Gas Offices, Duke Power Offices, Amerisuites, and Trane Upstate. Roper Mountain Science Center has been the primary location for the lunch meetings since 2002. As of this writing fees for the lunch meeting are \$10 for members and \$15 for non-members. Having served on the Greenville board for many years I can say that the merits of an evening versus lunch meeting have been discussed many times, and will probably be discussed many more.

Up until 1996 the end of the ASHRAE year was frequently capped with a BBQ at Benny Bootle's residence. Benny passed away in December 1996.

In reviewing historical documents to write this history I noted that from 1992 through 1998 at least one meeting a year was held in the Asheville area, usually at the Holiday Inn, Arden. The Western North Carolina Section received its charter in April 1995. As of this writing I cannot state the Section is considered active or not (The Asheville Section is no longer active in 2022, more in upcoming section BG). In October of this year a meeting was held in Asheville at the Lenoir Rhyne Center for Graduate Studies. Attendance was very good.

A newsletter delivered via the US Postal Service was dropped in 2003 and the chapter electronic e-mail newsletter was born. In 2002-2003 printing and mailing the newsletter cost the chapter \$2640, a significant portion of the budget.

# ASHRAE Greenville Chapter History

The Greenville Chapter website was established in 2003. Crashed (or more correctly froze) in 2011 giving the appearance of Grant Wiegmann remaining as on-going president. Rebirth of the website is scheduled for November of 2013.

In 2006 the chapter was recognized by the North Carolina Board of Examiners for Engineers and Surveyors (NCBELS) as an authorized provider of continuing education credits for professional engineers registered in North Carolina. Seminars and programs are eligible for Professional Development Hours in North Carolina.

The Chapter Regional Conference (CRC) is held in August and hosted by the seven chapters in Region IV on a rotating basis. Greenville hosted CRC in 1998, 2005, and 2012. The 1998 CRC was held at the Grove Park Inn in Asheville, The 2005 and 2012 CRC's were held at the Embassy Suites on Verde Boulevard in Greenville.

Benny's history article mentioned flying to the national meeting on a DC-3 for \$100 with numerous stops. The New York meeting in January has a registration fee of \$540 to \$695, early reservation hotel at \$240 a night, and add airfare at \$280 and up. Of course air travel now will only require one stop or less. Chapter membership is \$30 and national dues are \$196.

Establishing a Clemson Student Chapter has been an on-going goal of the Greenville chapter for many years. The goal became a reality due to the efforts of Daniel Lowe, Student Activities, and Dr. Richard Miller, faculty advisor. The student chapter's first official meeting was in November 2011 with Ron Jarnigan, ASHRAE President as their first speaker.

This was not Greenville's first student chapter. There was a student chapter at Greenville Technical College chartered in March 1995 with Jerry Moore, Student Activities Chairman and Tom Shiflet, Greenville Tech, as the organizers. Announcements of a new student chapter are made in bold type, the disappearance of same happens quietly. Based on the writer's not so impressive memory the Greenville Tech Student Chapter stopped functioning sometime before 2003.

Ron Jarnigan was not the first ASHRAE president to visit us. In March of 2002 William Coad, ASHRAE President, visited the Greenville chapter, and conducted a seminar on Ethics & Economics of Energy Conservation. Over the years the Board of Directors, led by the Programs Chairman, work to present interesting and educational programs. They haven't all been home runs, but most have been very good. Below is a list of some of the highlights:

4/1996 Jim Oswald - How to Surf the Internet (It was a new thing then.)

4/1998 Panel Discussion on Specifications

3/1999 Dave Miller - Y2K - Joint Meeting with NSPE (Remember the scare associated with the millennium and computers?)

9/2004 Marilyn Flenner - Litigation & Liability for Engineers. (Numerous speakers over the years addressed litigation and liability issues.)

9/2005 Professor Stanley Mumma - Dedicated Outdoor Air Systems

3/2006 Dan In-Hout - Diffuser Selection (He returned in 2007 to discuss VAV systems.)

2/2009 Professor Essam Eldin Khalil, Cairo University - Ventilation of Archaeological Tombs

5/2009 Thomas Creek Brewery Tour (For some reason not everyone stayed with the tour.)

Various Dates Chris Edmonson - Numerous topics and always a favorite.

There have also been many good speakers from our own ASHRAE Community. Please let the board know of suggested topics and speakers.

# ASHRAE Greenville Chapter History

There are currently 206 members assigned to the Greenville Chapter. We are always looking for members willing to help with operations. One of the reasons I have stayed involved is the people that I meet and connections to others in this field, not just in Greenville, but all over the Carolinas and Georgia.

## 2014-2022

by Brandon Guy

Continuing the list of presidents from Benny Boodle and Devon Cortright, a list of presidents from 2013 to present is below. A full list of presidents has also been created and can be seen in Appendix B.

2014/2015	Myrna Dayan
2015/2016	Richard "Tigue" Garick
2016/2017	Rodney Hinton
2017/2018	Melissa Anguilo
2018/2019	Jeremy Butdorf
2019/2020	Richard "Tigue" Garick
2020/2021	Brandon Guy
2021/2022	Co-Presidents William "Ryan" Tonnsen Brandon Guy
2022/2023	William "Bill" Knight

The 2021/22 Co-Presidents were done because of lack of volunteer time coming out of Covid. Responsibilities were split evenly.

Cost of meetings has increased to \$15 dollars for members and \$20 for guest. Membership dues has remained at \$30. This took effect in 2018.

Meetings were held at Roper Mountain Science Center through 2013. In 2014, meetings were held at MT Anderson, another Greenville County Schools Location until 2020 when covid hit. Meetings were canceled from March 2020 until October 2020. In October of 2020, meetings started back as virtual meetings. All meetings from October 2020 until June of 2021 were virtual only meetings. In June of 2021 the first in-person post-covid meeting was held at City Range Steak House. Starting the next society year in September of 2021, Meetings were moved back to Roper Mountain Science center. In September of 2022, meetings were moved to Total Comfort Solutions on Fairforest Way. A virtual option has been offered at Most Meetings since September of 2021 and looks to continue for the foreseeable future.

A list of most meetings from 2003 to 2022 can be seen in the Table that is in Appendix A. Newsletters for these meetings are also saved on the Chapters Basecamp that is provided by ASHRAE Society. This was done from the start of digitally sharing the newsletters. As seen previously in this history, Devon documented that this transition happened in 2003. All Chapter officers should have access to the Basecamp if anyone wants to view the saved newsletters.

# ASHRAE Greenville Chapter History

The Clemson Branch is currently teetering on being active or deactive mostly due to the few amount of student members. It when Inactive in 2020 due to lack of participation during Covid, but in 2022 it was reinstated as an Active Student Branch. Dr. Figliola was the advisor for a period of time. The current advisor is Zhen Li. The Clemson branch did just announce that they were going to start having meetings again this year. There are Currently 8 Student members in the Greenville Chapter. Six of them are at Clemson. The other two are at Asheville-Buncombe Technical Community College and University of North Carolina Asheville. Several students over the years have been awarded scholarships through the Region and Society. The latest one was in 2021 when Claiborn "Clay" Mosk was awarded the Benny Boodle scholarship from Society.

Greenville was scheduled to host CRC in 2020. This was postponed to 2021 due to covid. In 2021 the Region IV CRC was held in Greenville at the Embassy Suites Riverview. Everything was great due to Bill Knight's excellent planning.

There has not been a meeting in Asheville in several years. The Board of Governors discusses having meetings in Asheville, but currently does not have anyone in the Asheville Area to take the lead on organizing the meetings. The Asheville section has been listed as inactive by ASHRAE Society.

As you can see throughout the history that I am writing, Covid 19 affected the Greenville chapter a great deal. It shut down in person meeting from March of 2020 to June of 2021. Covid forced the chapter to learn to function using virtual meetings. Our own Jim Ridenhour was on the Epidemic Task Force for Covid 19. Covid was a rough time and affected many people. It is good to see the Greenville chapter doing well after Covid.

At this time Greenville currently has 50 life members. This is 28% of total membership. The total Membership of the Greenville Chapter is 176 as of 10/5/2022.
